# Stellar Energy Foundation: Fusion on the Grid soon enough to make a difference

- Mission: To help bring fusion energy to the zero-carbon portfolio soon enough to make an impact on climate change
- Communications and Advocacy: Communications to broad audience, not just technology sector
  - Hosted 100+ participant colloquium "Roadmap to the Fusion Economy" June 2019
  - Hosted 400+ participant webinar "Energy, Environment, Innovation: Fusion's Promise for our Climate" January 2021
  - Hosted 400+ participant webinar June 2021, "Mobilizing the Investment Community into Fusion"
  - Will host quarterly webinars in 2022
- Targeted technology support
  - Public/Private/Philanthropic partnership with ARPA-E, PPPL, and SABR, LLC: "Permanent Magnets for Stellarators"
  - Partnership structure applicable to future projects
  - Looking for suitable future projects to support
