

Technical Narrative

Request for Assistance applications are limited to ten pages of text and supporting information such as graphs, tables, and images, to address Sections I, II, and III described below.

Applicant shall provide a narrative that addresses the specific information below:

Section I: Technical Merit

1. **Company Summary:** Describe the mission and vision for your company. What differentiates your company from others working in fusion?
2. **Problem Statement:** Describe the challenge your company is facing and how this assistance, if granted, will help you overcome that challenge.
3. **Work Scope:** Describe the public institute (lab or university) capability you need and the work you would like completed.*
4. **Fusion Energy Impact:** Describe how this project, if successful, will contribute to advancing fusion energy development

Section II: Business and Market Impact

1. **Use of Project Results:** Describe how the results of the proposed assistance will be used to advance the development of your company's fusion concept(s).

Section III: Qualifications and Experience

1. **List Key Members:** List key members of your company's leadership and technical team. Briefly describe their qualifications and experience. (Up to three 2 page resumes may be included as separate attachments)

NOTE: Graphs, tables, and images may be included as supporting documentation, limited to two pages in an appendix.

Formatting: Size 11.5 font Times New Roman minimum; ten, single-spaced pages maximum (Narrative), which may include up to two pages of Appendix material (graphs and tables); one-inch margins all around minimum; pdf format is preferred.

Optional Resumes: Label files with the last name of the individual.

* In limited cases, a subcontract to another research institute may be allowable. If requested, adequately describe the institution and rationale for the subcontract. All requested subcontracts must be disclosed and compatible with the spirit of the INFUSE program.
